

Elfaham ERP

Elfaham ERP Guide

v2.0.2 — Elfaham Solutions

Getting Started

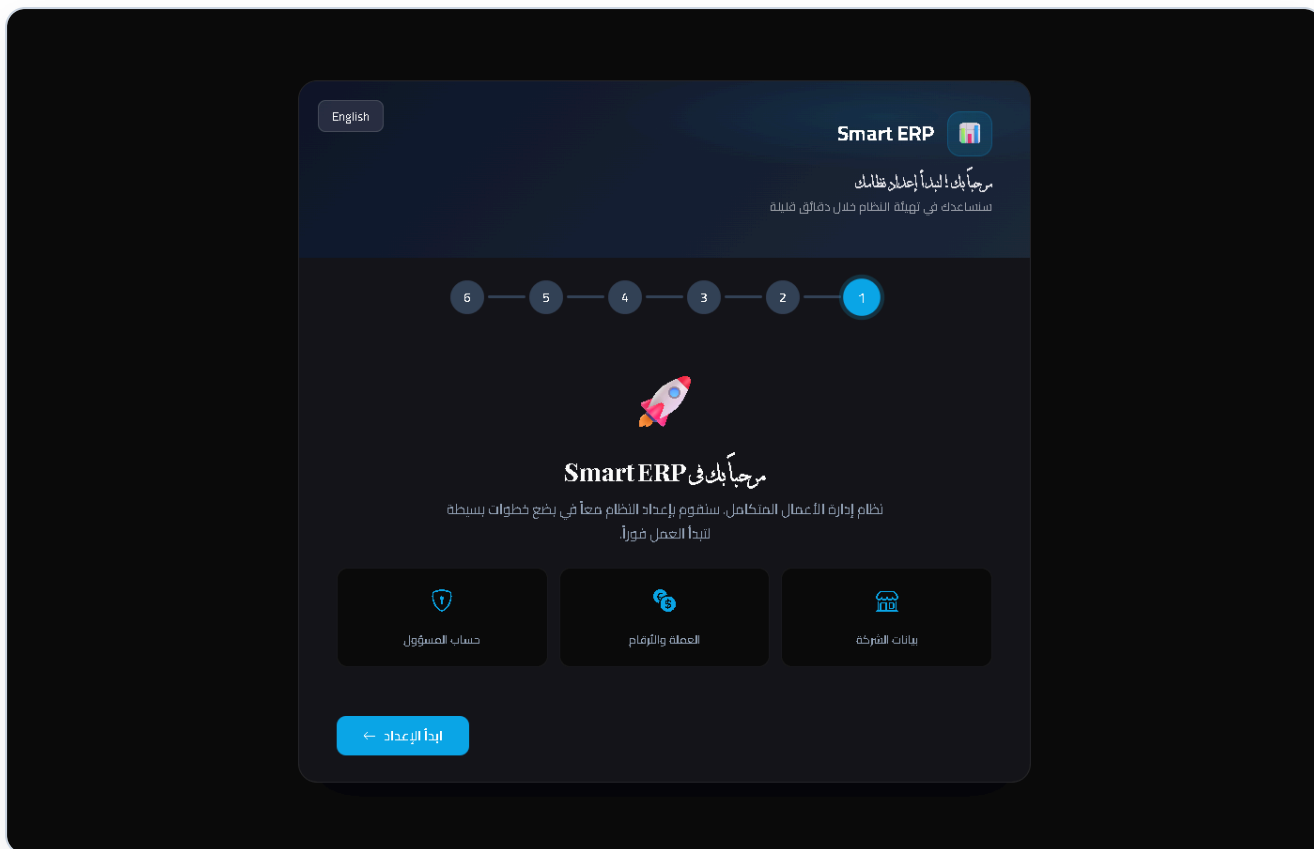

Welcome to Elfaham ERP. After installation, launch the desktop app and sign in with your administrator account. The login screen lets you choose language and dark or light theme.

Getting Started

Dashboard

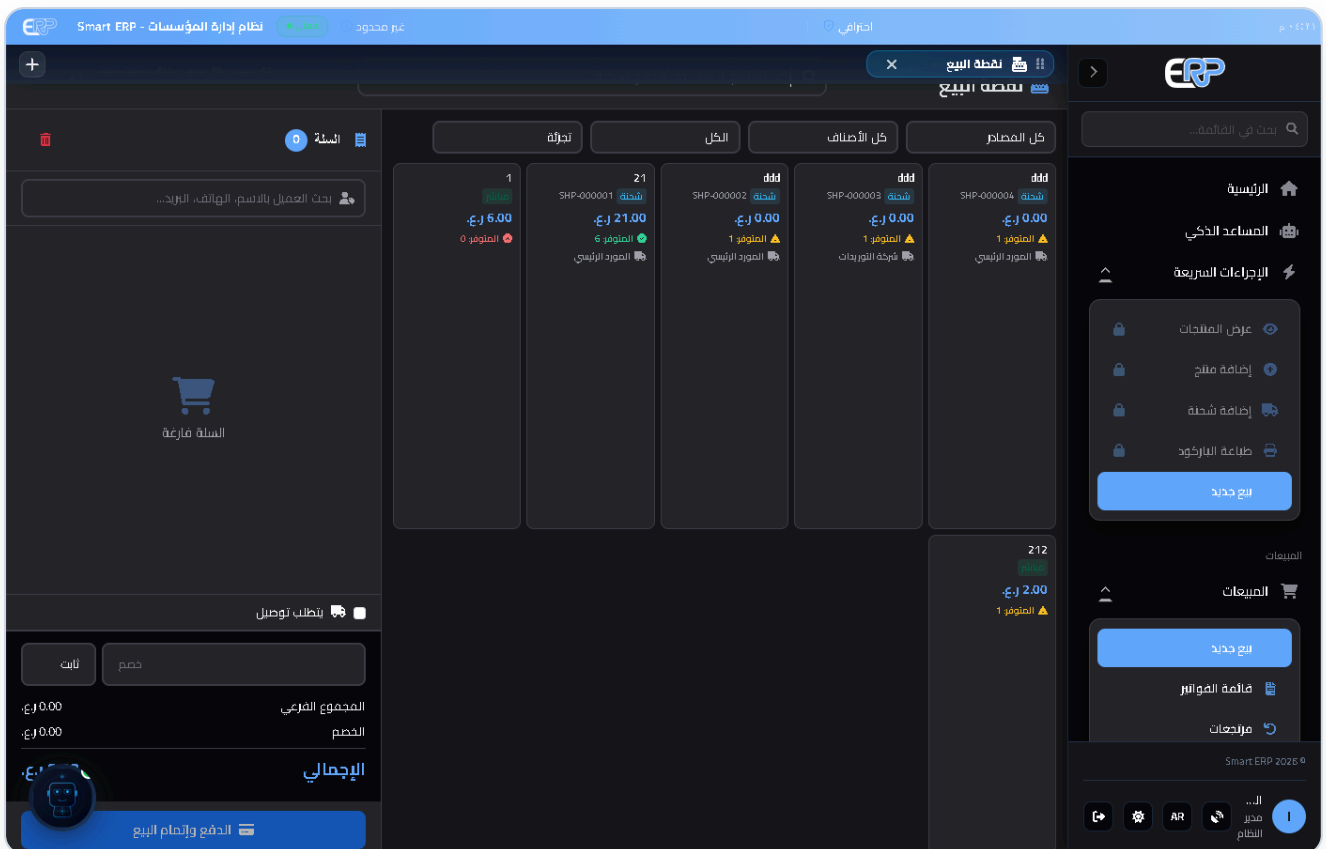

The dashboard shows KPIs, charts, and alerts for inventory and sales. Use it as your daily command center to monitor business performance.

Dashboard

Point of Sale

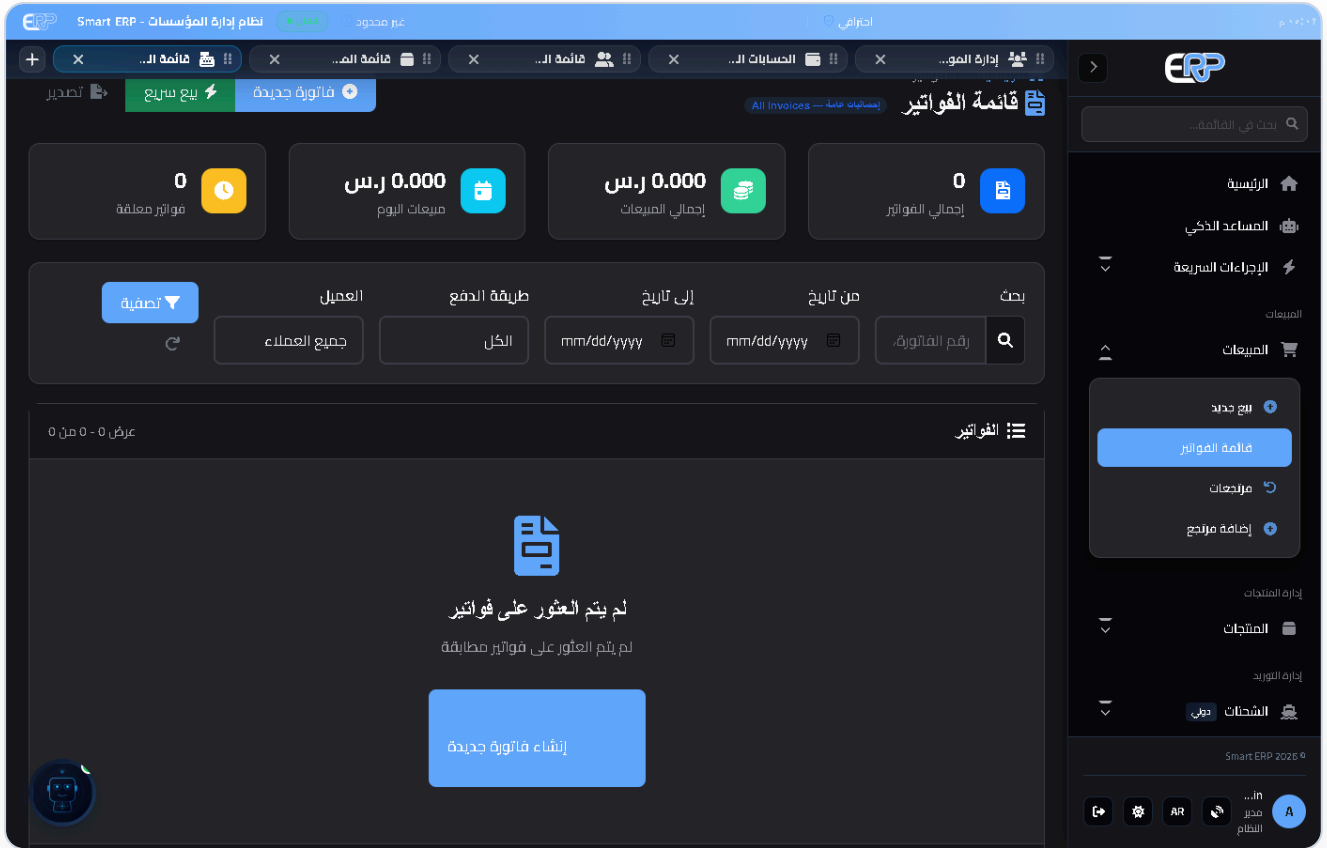

The POS screen is optimized for speed: scan barcodes, add items to the cart, and complete checkout. Sales sync automatically to inventory and accounting.

POS

Sales & Invoices

Create sales invoices, returns, and installment plans. Every invoice is linked to customers, stock, and financial accounts.

Sales

Inventory

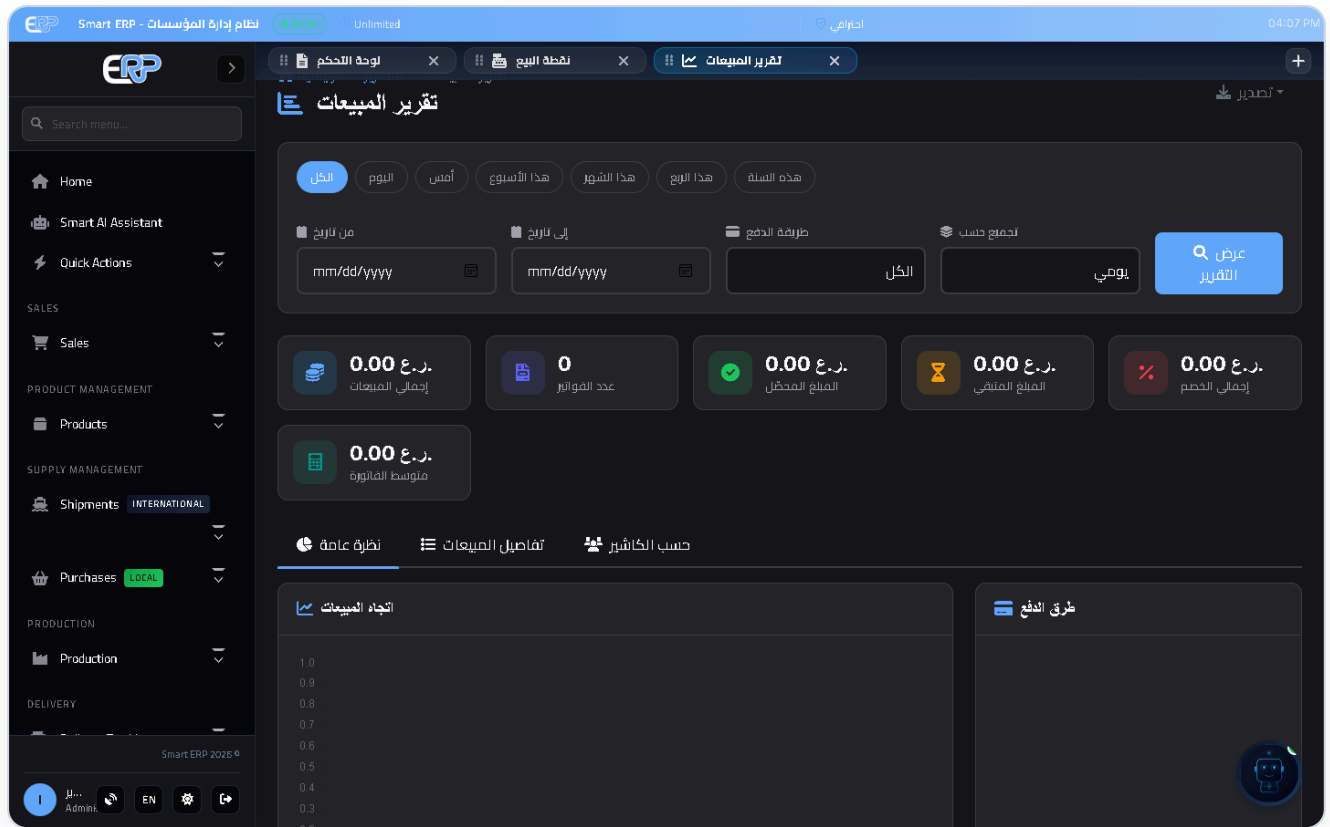

Track stock levels across warehouses, receive low-stock alerts, and transfer items between branches. Inventory movements update reports instantly.

#	المنتج	التصنيف	الكمية الحالية	الحد الأدنى	الحد الأقصى	مستوى المخزون	الحالة	إجراءات
1	1 2	أغذية	0	5	100	0%	نقذ	
2	21 12	أغذية	234	5	100	100%	مرتفع	
3	212 2121	أغذية	1	2	4	25%	منخفض	
4	ddd 2111	إلكترونيات	125	5	100	100%	مرتفع	

Inventory

Reports

Sales, profit, and inventory reports are available with Excel export. Use date filters to compare performance and make data-driven decisions.

Reports
