

Elfaham Gym Cloud SaaS Platform

Next-Generation Multi-Branch Gym Management System

- **Integrated multi-branch SaaS architecture managing up to 5 branches under a unified central tenant.**
- **4 synchronized surfaces: Desktop Turnstile Station, Web Management, Mobile Scanner, and Telegram Bot.**
- **Discrete seat allocations: 5 Desktop Stations, 5 Web Sessions, 10 Mobile Devices, and Telegram Bot.**
- **Robust front-desk offline tolerance with automated real-time cloud synchronization.**

The 4 Connected Surfaces

Unified realtime operations for owners, managers, coaches, and front-desk

- **1. Desktop Workstation:** Turnstile hardware relays, barcode scanners, and high-speed offline check-in.
- **2. Web Management Console:** Multi-branch switching, financial shifts, memberships, and analytics.
- **3. Mobile Scanner App:** Rapid QR gatekeeper check-in designed for coaches and floor security staff.
- **4. Telegram Bot Integration:** Instant push alerts on shift close, cash balances, and revenue milestones.

Commercial Licensing & Seamless Migration

Complete operational control and effortless migration path

- **Single commercial license key activating all channels and branches with granular seat quotas.**
- **Central device management: audit connected devices and revoke or transfer seats in seconds.**
- **Continuous automated cloud updates without disruption to day-to-day gym front-desk operations.**
- **One-click migration tool: smoothly import existing local databases (gym.db) directly into the Cloud.**
